GROUP FINANCIALS
UNAUDITED INTERIM Q3 2020 UPDATE
The Covid-19 outbreak has increasingly taken a toll on global economies, and the hospitality industry is severely impacted. Governments in several countries have announced extraordinary measures to slow the spread of the virus. These measures have led to an immediate and significant deterioration in the hospitality market, with a high number of cancellations and no shows and very few new bookings. At the end of May lockdowns across Europe started to being lifted and travel started to gradually resume. Croatia opened up its borders and finally business started coming in and an intensifying pace from the end of June to reach its peak in mid-August, when several countries including Austria, Italy and Slovenia upgraded Croatia’s risk profile as a travel destination.

- Total revenues decreased by 66.8% to EUR 30.7 million (2019: EUR 92.4 million). Decrease in revenues is the outcome of occupancy that halved to 27.1% and the reduction in average daily rate by 9.5% to EUR 72.4 (2019: EUR 80.0)

- The Group posted an EBITDA of EUR 2.5 million (2019: EUR 33.4 million)

- The Group used Governments’ support in its countries of operations to navigate through these challenging times. The start dates of these Government schemes vary, however all were available for a period of at least three months. In total, the Group received EUR 4.5 million in grants. Moreover, the Group is focussed on preserving its liquidity and sustainability by further optimising its costs, significantly reducing payroll, including furlough of employees, the non-renewal of fixed-term employment contracts, halting of contract labour and shortening of working hours.
Q3 2020 trading update - Croatia

KEY COMMENTS

• Lockdowns experienced in spring were eased and as the season progressed and the booking pace and arrivals started increasing at a growing pace. Despite the favourable epidemic conditions in the Istrian region, countries from Europe started flagging Croatia as a risky destination from the epidemiologic point of view, which had a negative effect on the booking and arrivals dynamics. The outcome of this is loss of the peak of the business in the second half of August and of a, what could have had been a solid, shoulder season throughout September and partially October, which were marked by extremely good weather conditions this year.

• Total revenues decreased by 68.8% to EUR 21.0 million (2019: EUR 67.3 million). Accommodation revenues decreased by 68.3% as a result of a decrease in average daily rate of 11.0% to EUR 65.9 (2019: 74.0) and a reduction in occupancy to 26.3% (2019: 51.2%).

• It is important to emphasise that the business mix was different this year with campsites contributing more to the result as opposed to previous years. Such performance is due to the investments undertaken in our campsites over the last few years coupled with the perception of safety that campsites provide to guests, particularly in an epidemic environment. Campsites contributed by over 50% to our Q3 revenues (approximately 35% last year) and over 60% in profitability (approximately 45% last year). Importantly, campsites have the highest profitability within the Group although have a comparatively a lower ADR. Therefore the changed business mix is reflected in a lower blended ADR in Croatia and therefore for the Group.

• EBITDA amounted to EUR 3.2 million (2019: EUR 25.5 million).

• The Company utilized Government grants. The total amount of such grants received from the Government amounted to EUR 3.5 million.
Q3 2020 trading update - Germany and Hungary

**KEY COMMENTS**

- Governments in Germany and Hungary introduced lockdowns in March. The negative trends already felt in the weeks leading to the implementation of these measures were exacerbated and the business essentially stopped. The operations started gradually resuming in late May noting that pickup has been subdued over the summer months and the performance varied between cities. Cologne and Nuremberg performed comparatively better whilst our art’otel budapest was hit by lack of flights into the city, ban to host leisure travellers, and stricter measures being implemented from August already.

- Total reported revenue therefore decreased by an unprecedented 62.6% to EUR 9.1 million (2019: EUR 24.6 million). Accommodation revenue dropped by 64.6% almost entirely as a result of a material drop in occupancy to 30.6% (2019: 80.9%). This resulted in RevPAR deteriorating by 64.7% to EUR 29.3 (2019: EUR 84.2).

- Reported EBITDA was breaking even at EUR 0.2 million (2019: EUR 6.9 million).

- In Germany the Group is using the “Kurzarbeit” measures. Hungary introduced the reduced working hours’ programme and waiver of employment taxes. Whilst measures in Germany have been extended until year-end 2021, Hungary does not provide any support beyond the once granted during the first three months of the pandemic. During the period the Group received grants in the total amount of EUR 1.0 million.

- The Group has postponed rental payments from March onwards and is currently negotiating acceptable terms with a view to get waivers and rent deferrals. Moreover, it has rescheduled its principal repayment coming due between April and September to the end of 2021.

### KEY COMMENTS

- Bank borrowings increased as the loans to fund the repositioning of our self catering apartment complex Verudela Beach and the acquisition of Hotel Riviera from the Republic of Croatia were drawn.
- The Company entered into a new loan agreement with OTP banka d.d. in Croatia for the purchase and refurbishment of Hotel Riviera. The facility is in a total amount of EUR 10 million (HRK 75 million), consisting of two tranches, due 2030 at a fixed interest rate of 2.125%.
- Lease liabilities increased since the Group entered into a 45 year long lease agreement for a property in central Zagreb in January 2020.
- The cash position decreased as a result of negative free cash flow (driven by the Covid-19 pandemic) coupled with continuation of capital expenditures during the same period.
COVID-19: overview of actions undertaken

- The Group is utilizing Governments’ support in its countries of operations to navigate through these challenging times. The start dates of these Government schemes vary, however all are available for a period of at least three months.
- The focus is on preserving liquidity and sustainability by
  - further optimizing its costs
  - reducing payroll expense (including furlough of employees, non-renewal of fixed-term employment contracts, halting of contract labour, shortening of working hours)
  - Deferral of taxes
  - Deferral of rental payments

In Croatia the Government:
- assisted companies with the payment of salaries. During 9M 2020 the Group received assistance in the amount of EUR 3.5 million
- granted a waiver for payments of concessions until November 2020
- granted a deferral of other taxes such as personal income taxes and contributions

In Germany the Government
- enacted the “kurtzarbeit” measures which enable regular working hours to be reduced and the Government compensates the difference to regular hours to employees thereby alleviating some pressure on the payroll side. During 9M 2020 the Group received assistance in the amount of EUR 1.0 million
- granted deferral of taxes until June (such as income tax and solidarity tax)

Hungary introduced the reduced working hours’ programme and waiver of employment taxes.

- In addition, the Group has a long-standing and supportive group of banks with whom it is in regular dialogue to ensure there is the possibility to take all the necessary actions that are in the best interests of the Group in the current environment.
- Importantly, the Group is liquid, and its cash position as at 30 September exceeded EUR 70.0 million, which is providing an additional safety net in the currently uncertain and unpredictable environment.
Update on investments

- **ARENA GRAND KAŽELA PHASE II**
  - **2019-2020**
  - Installation of 45 new mobile homes, refurbishment of existing restaurant and bar, addition of a new sanitary block and refurbishment of four existing sanitary blocks - COMPLETED

1Including rooms in 50% JVs, excluding camps.
Company has additional 5,903 units in campsites, out of which 624 are mobile homes.
Highlights of 2019

In 2019 we have started and completed the first phase of the repositioning of campsite Kažela into an upscale campsite with depth of offer including new mobile homes, high standard pitches, new restaurants, bars, reception, pools and activities’ zones. The second phase of the repositioning is completing now!

Signed a framework agreement for the acquisition. Transaction to close once certain conditions are satisfied.

In order to support shareholder value and following a strong performance in 2018 we were very pleased to bring forward the payment of our first dividend to 2019. The Company has also initiated a share buy-back scheme. In total HRK 41.9 million was returned to shareholders through a combination of dividends and share buybacks.

Constant optimization of our capital structure through new loan agreements at attractive terms to finance ongoing investments and partial refinancing of our existing debt with existing lenders to further improve terms and pricing.
