REPORT ON THE GROUNDS FOR A PARTIAL EXCLUSION OF THE PRE-EMPTIVE RIGHT WHEN SUBSCRIBING NEW SHARES

Following the successful completion of a Takeover Bid in April 2016 following which 65.63% shares of the share capital of Arenaturist d.d. (the **Company**) are now owned by Euro Sea Hotels N.V. and its affiliated company Dvadeset Osam društvo s ograničenom odgovornošću za turizam, ugostiteljstvo i usluge, Zagreb, Radnička cesta 80 (Company No. (MBS): 080602969, PIN: 59259322415) (**Dvadeset Osam**), each a subsidiary of PPHE Hotel Group Limited ("**PPHE Hotel Group**"), the Company continued with the consolidation of the Croatian operations.

On 31 October 2016, the Croatian operating companies Arenaturist Zlatne stijene d.o.o., Arenaturist hoteli d.o.o. and Arenaturist turistička naselja d.o.o. were merged with the Company, continuing the Group's consolidation of the Group's Croatian operations

On 21 November 2016, the Company moved to the Official Market of the Zagreb Stock Exchange. This higher listing is a significant step for the Company, bringing with it higher standards of corporate governance. It is expected that such move may improve liquidity in the Company's ordinary shares and raise the Company's profile both domestically and internationally.

The ultimate majority owner of the Company, PPHE Hotel Group, with its affiliated companies, owns, leases, franchises and develops full service upscale hotels in major gateway cities, regional centres and select resort destinations, predominantly in Europe (together the **Group**). The Group currently operates in the markets of the United Kingdom, the Netherlands, Germany, Hungary, Croatia and Israel, having today a portfolio of more than 39 hotels (in ownership, under management, leased/franchised) and more than 8,400 accommodation units. The majority of the hotels that operate as part of the Group operate under the franchise of two separate brands Park Plaza[®] Hotels & Resorts (owned by CarlsonSM) or art'otel[®] (owned by the Group). The Group owns an exclusive license from CarlsonSM, the global hospitality and travel group for the development and management of Park Plaza[®] Hotels & Resorts in the regions of Europe, the Middle East and Africa (EMEA).

At the Company's Shareholders' Meeting on 31 August 2016, the shareholders of the Company authorised the Management Board of the Company to be able to increase the share capital of the Company constituting fifty per cent of the nominal value of the current share capital within an 18 month period as of the date of entry of the changes to the Articles of Association of the Company in the court register in order to acquire hotels and hotel operations owned by the Group, as well as a licence to use one or more of the Group's brands in certain countries in Central and Eastern Europe (the **Decision**).

In accordance with the Decision, new shares may be issued for a contribution in kind and/or rights, and under the Decision, the Management Board is authorised to exclude any pre-emptive rights of the existing shareholders when subscribing for the new shares.

In accordance with the Group's strategic plans for the development of the Company into a strong leisure and hospitality company in Central and Eastern Europe, the Group will contribute its German and Hungarian operations (consisting of companies and hotel properties) in exchange for new shares in the Company to a member of the Group (**Capital Contribution**). PPHE Hotel Group will add a portfolio of 7 owned or leased upscale hotels and one managed upscale hotel with a total of 1,295 bedrooms (the **Hotels**), these include properties in key tourist and business centres such as Berlin, Budapest, Cologne and Nuremberg. This will greatly diversify Arenaturist and its subsidiaries (**AT Group**) revenues across countries, hotel types, market segments and hotel operating agreements

whilst reducing the seasonality of operations. The Executive Directors expects that this will also allow for significant operating synergies and create a unique hospitality company in the region.

The Hotels are owned, leased and/or managed by Sugarhill Investments B.V. which is a company incorporated under the existing laws of the Netherlands, with its statutory seat at Claude Debussylaan 14, Viñoly Tower 5th Floor, 1082MD Amsterdam, registered with the Trade Register of the Dutch Chamber of Commerce under number 32083051 (**Sugarhill**). Sugarhill together with its subsidiaries (the **Sugarhill Group**) currently forms part of the Group.

Dvadeset Osam is the majority owner (88%) of Sugarhill and therefore the majority owner of Sugarhill Group.

For the purpose of further expansion of the AT Group in Croatia and other countries within the territory as defined below, PPHE Hotel Group will also, through a newly established subsidiary, Arena Hospitality Management d.o.o. (**Arena Hospitality**) (a company wholly owned by Sugarhill) transfer to the Company the hotel management agreements for the Hotels and the exclusive license to use the brand Park Plaza® (the **Licence**) in the territories of Croatia, Germany, Austria, Bulgaria, Slovenia, Bosnia and Herzegovina, Montenegro, Kosovo, Serbia, Albania, Romania, Moldavia, Ukraine, Slovakia, the Czech Republic, Poland, Belarus and Hungary (**Territory**).

Various members of the Sugarhill Group and the Company are party to the hotel operating agreements for each of the Hotels, the leases to the Hotels and the Licence.

German Hotel market

In comparison to Croatia, the German travel and tourism industry makes up a much smaller part of German economy and in 2015 total spending in the sector comprised 8.9% of country's GDP². Similarly to Croatia the sector is fast growing and Germany is becoming an increasingly popular destination for travellers all over the world. The World Travel & Tourism Council forecasts that over the next ten years real spending on travel and tourism in Germany will grow on average at 3.0% per annum, a much higher growth rate than the expected real growth rate of the overall economy. Alongside the United Kingdom, and London in particular, Germany is the most attractive hotel real estate market in Europe and the country is unrivalled as the world's number one destination for trade fairs, hosting two thirds of all global flagship exhibitions. Germany has more than 16,000 hotels and the market is characterised by a relatively low, but growing share of branded hotels (approximately 26%) and a very low penetration rate of large international hotel chains.

Occupancy at German hotels is at multi-decade highs and RevPAR growth has been consistently in the 4-5% range over the past five years. There are fifteen German cities with annual overnights of more than one million and most of them have been outperforming their European peers since the 2008 – 2009 economic downturn. Despite stronger recent growth, the top five performing cities in Germany (Berlin, Munich, Hamburg, Frankfurt and Cologne) are still significantly underperforming top European cities on ADR and other revenue metrics. Germany has also been witnessing a period of

² World Travel & Tourism Council

strong growth in the number of arrivals and overnight stays and in 2015 overnight stays demonstrated growth for the seventh consecutive year, reaching c. 450 million, up 3% on the previous year³. ADRs and occupancies grew in all of the biggest German cities including Berlin where close to 50% of Sugarhill's units are located.

Croatia is predominantly a summer, leisure destination for foreign visitors whereas the German travel and tourism market is much more balanced in terms of types of travel and visitors as well as seasonality. The German travel and tourism market relies much more on city hotels and corporate travel and it has a more balanced split between business and leisure spending. Moreover, the German hotel industry is predominantly oriented towards intra-country travelling and as such much less affected by competing destinations and security risks.

Berlin

Berlin is one of the most popular global tourist destinations and in terms of overnight stays it is the third most popular city in Europe, after London and Paris. Recently the city has become a centre of the European start-up scene and is also Germany's most popular city for MICE business⁴. Additionally, the city is becoming an important destination for medical tourism and the local Government is strongly supporting the expansion of clinics, hospitals and medical research institutes with the goal to become the number one location for providing medical care in Germany.

As of the end of 2015, Berlin had approximately 140,000 beds across 780 accommodation providers. In Sugarhill's targeted 4-star segment, at the end of 2015, the city held 25,796 rooms of which 20,630 were branded, which put the AT Group's share of branded rooms in the city at 3%. In 2015, Berlin had 30.2 million visitors whose arrivals exhibited limited seasonality effects. The city has a balance between domestic and foreign visitors with foreign visitors' percentage increasing year on year⁵.

Over the last ten years, the city has experienced a consistent and high annual increase in the number of visitors, their length of stay and overnight stays. Moreover, as the demand growth has accelerated over the last couple of years the supply growth has significantly slowed down resulting in a strong increase in occupancies and average daily rates, and consequently RevPARs, particularly in the 4-star hotel segment. Despite improving numbers, the city's hotels' key performance indicators are still generally lower than in other key capital cities in Europe.

Contract Models

The German hotel market, as with most Nordic and German speaking markets, is mostly lease driven and properties are typically owned by pension funds and insurance companies. These leases tend to be long-term arrangements and in most cases, monthly rental payments are based on a percentage of the operating revenues of that hotel subject, in the majority of cases, to a minimum amount which is independent of the operating revenue. Due to the high level of development of the capital markets and high economic stability, property lease financing is highly developed in Germany and has an attractive risk/reward profile. Leasing models have proven to be less interesting strategically for big international hotel chains which prefer asset light models such as franchising and hotel management.

Certain of the Sugarhill Group's hotels in Germany and the art'otel in Budapest in Hungary are operated under operating leases. These tend to be long-term arrangements under which the Group leases a hotel from a third party for a period of up to 25 years. In most cases, monthly rental payments are based on a percentage of the operating revenues of that hotel subject, in the majority of cases, to a minimum amount which is independent of the operating revenue.

Following the Capital Contribution, the Company will have significantly diversified its exposure away from predominantly summer based properties in and around the cities of Pula and Medulin and it is expected that more than 30% of revenues will come from outside of Croatia, predominantly from Berlin, an important and fast growing city destination.

Territorial management rights

Under a framework agreement, the Sugarhill Group holds rights to use and operate the art'otel brand and exclusive rights to use and operate the Park Plaza brand in the Territory conditional upon it meeting certain obligations, most importantly, that it actively develops new opportunities in the Territory. Under the framework agreement with members of the Group, the Sugarhill Group will need to develop and open new outlets (hotels, self-catering apartments and campsites) based on the following development schedule:

- For the first 24 months from the date of the agreement – 1 new outlet
- Every 24 months thereafter – 2 new outlets

Through acquisition of Sugarhill Group the Company will indirectly become the owner and beneficiary of above-mentioned rights. This is expected to affect business of the Company in following ways:

- 1) the Company is gaining the ability to develop and operate on an exclusive basis branded hotels and hotel operations in large geographic area of Central, Eastern and South-Eastern Europe which has more than 200 million inhabitants,
- 2) the Company will be in position to obtain contracts for management of hotels owned by third parties, which should enable revenue growth without large investments into hotel assets (through "asset light" strategies),
- 3) the Company will become the owner of a licence company which is a part of Sugarhill Group which will expose the Company to licencing revenues and improve its profitability on consolidated basis.

In order to continue to benefit from the opportunities provided by the global Park Plaza Hotels & Resorts system and the partnership of the Group with Carlson Rezidor, the hotels will each enter into a licence, sales and marketing agreement with a member of the Group which will greatly enhance the Company's ability to attract and retain guests and provide them with a world-class service in a globalising market place.

The Executive Directors regard the present moment as convenient for the implementation of the process of an increase of the share capital by virtue of the power granted to the Management Board under Article 7 section 3 of the Articles of Association, since the 2016 tourist season has been successfully brought to a close, and, currently, preparations for the 2017 tourist season are under way.

To this effect, the Management Board will consider adopting a Decision whereby the share capital of the Company will be increased from the amount of HRK 43,650,000 by the amount of HRK 21,825,000 to the amount of HRK 65,475,000 by issuance of 1,091,250 new ordinary registered shares of the Company, each in the nominal value of HRK 20.00 (the "New Shares"), against payment of contribution in rights in the value of EUR 61.092.396,62 which pursuant to the middle rate of exchange of the Croatian National Bank on the date of adoption of the Decision of the Management Board equals HRK 460,005,525, of which, taking into account the price at which the New Shares are subscribed and paid, i.e. the amount of HRK 421.54 per New Share, which represent the current average traded price for the shares of the Company on Zagreb Stock Exchange. The amount of HRK 21,825,000 will be allocated to the share capital of the Company, and the amount of HRK 438,180,525 will be allocated to the capital reserves of the Company.

In order to establish an adequate value of the Company's share in the procedure of the Capital Contribution, the Executive Directors have taken into consideration a valuation of the Company's share conducted by an independent appraiser and market prices achieved on ZSE in 2016. Average traded price of Company's shares over the last 6-month period was 400.55 HRK, over the last 3-month period was 428.37 HRK and in the last week was 421.54 HRK. Since the price for the New Shares in the amount of HRK 421.54 represents the current market price achieved in the trading on the ZSE after the Company's listing on the Official market, and since this price is in the range of values provided by independent valuation and market prices achieved on ZSE in 2016, the Executive

Directors consider the price of HRK 421.54 per New Share as an accurate assessment of the value of the Company's shares to be used in the procedure of the Capital Contribution.

The increase of the share capital of the Company against contribution in rights to the Company, completely by the company Dvadeset Osam, by investing into the Company the shares which constitute 88% of the share capital of the company Sugarhill, in a manner that the company Dvadeset Osam, in exchange for the shares it holds in the company Sugarhill and which it will invest into the Company, will acquire the New Shares in the Company, and Arenaturist d.d. will become the majority owner of Sugarhill (and thus the Sugharhill Group), and thereby, indirectly, the "owner" of the hotels and hotel operations which the Group owns independently or with partners in Germany and Hungary, including the hotel management agreements and the licence to use the brand Park Plaza[®] and art'otel in Territory.

The fair value of Sugarhill's share capital, against which the Company will issue new shares was ascertained by a Big Four accounting firm retained by the Executive Directors which is independent to the business of the Group and the Company. This value is also expected to be verified by the auditor appointed by the Court.

For the aforementioned reasons and resulting from the power under Article 7 section 3 of the Articles of Association of the Company, the Executive Directors consider it justified to partially exclude the pre-emptive right of other shareholders in favour of the shareholder of the Company i.e. the company Dvadeset Osam.

If other shareholders would be granted the pre-emptive right to subscribe the shares, due to the legally prescribed time limits to be obligatory obeyed in this process, and due to the need to prepare and approve detailed documents (for example, the Prospectus of Issue or the Listing of new shares), the process would be additionally prolonged and the costs of the implementation of the increase of the share capital increased.

For the reasons stated above, the Executive Directors propose that the Management Board adopts the Decision on a partial exclusion of the pre-emptive right of the shareholders to subscribe the New Shares, against payment of contribution in rights, in favour of the shareholder of the Company the company Dvadeset Osam d.o.o., a company which is part of the Group.

The Management Board, in accordance with Article 324 section 2 of the Companies Act and the authority under Article 7 section 3 of the Articles of Association of the Company, adopts the following
